

# DOUBLE TROUBLE

## READY TO USE INSECTICIDE

### DESCRIPTION

**DOUBLE TROUBLE** is a semi-gelled, ready to use insecticide for indoor and outdoor use. Kills on contact and keeps killing for up to 16 weeks. Nonstaining formula leaves no greasy or oily residue and requires no shaking. Can be used in and around horse stables, on house plants and ornamental plants. Not for use on plants grown for sale or other commercial use.

### APPLICATIONS

For use by pest control applicators, landscapers, lawn maintenance workers, homeowners, and maintenance personnel to control fleas and ticks, home invading pests such as ants and cockroaches, spiders, centipedes, scorpions, pantry pests, plant pests, aphids, bed bugs, mealy bugs, lace bugs, thrips, leafminers, and mites. Kills Japanese beetles and spider mites. Intended for use in and around homes, apartments, recreational vehicles, industrial plants, and other areas. Do not use in commercial food handling establishments, restaurants or other places where food is commercially prepared, processed or served.

### FEATURES & BENEFITS

- Convenient, ready to use, semi-gelled formula—no mixing required
- Long lasting residual action keeps killing up to 16 weeks
- Will not stain surfaces or fabrics

### SPECIFICATIONS

**FORM:** Slightly Viscous Gel  
**ODOR:** Bland  
**COLOR:** Milky  
**DETERGENCY:** None  
**TOXICITY:** N/A  
**WETTING ABILITY:** N/A  
**STORAGE STABILITY:** 1 Year +  
**COLD STABILITY:** 32°F  
**PHOSPHATES:** None  
**VOC CONTENT:** N/A

**FLASH POINT:** None  
**BOILING POINT:** 212°F  
**SOLUBILITY IN WATER:** 100%  
**SPECIFIC GRAVITY:** 1.00  
**% VOLATILE BY VOLUME:** 99% +  
**pH:** 5.4  
**VISCOSITY:** Thin  
**EVAPORATION RATE:** Slow  
**BIODEGRADABILITY:** Yes

#### ACTIVE INGREDIENTS:

\*Deltamethrin ..... 0.02%

**OTHER INGREDIENTS** ..... 99.98%

**TOTAL**..... 100.00%

### LABEL INFORMATION

#### DOUBLE TROUBLE RTU INSECTICIDE SPRAY

#### PRECAUTIONARY STATEMENTS

##### Hazards To Humans & Domestic Animals

**CAUTION:** Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

##### Environmental Hazards

This product is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of washwater or rinsate. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

##### Physical or Chemical Hazards

Do not apply this product in or on electrical equipment due to possibility of shock hazard.

READ THE LABEL FIRST!

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**General information:** Hold container upright. Do not spray up into air. Apply to surfaces only as a spot and crack & crevice treatment. Hold approximately 12 inches from surface to be sprayed. Squeeze trigger to spray until surface is slightly moist but not to the point of runoff. Over application may cause damage. Test in an inconspicuous area before applying.

Do not allow children or pets to contact treated surfaces until spray has dried.

Double Trouble keeps on killing **German Cockroaches** for up to 3 months after you spray; keeps on killing **Flies** for up to 4 (5) months after you spray.

Double Trouble kills on contact. Contact kill gives you immediate results when spraying insects directly.

Double Trouble Insecticide is intended to be used in and around residences and their immediate surroundings such as (but not limited to): **apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms, solariums, storage areas, sun rooms, utility rooms, and verandas.** Do not use in commercial food handling establishments, restaurants, or other places where food is commercially prepared or processed.

#### INDOORS:

**Cockroaches (including Adult And Immature Stages Of Both Non-Resistant And Organophosphate And Carbamate Resistant Strains), Ants, Boxelder Bugs, Centipedes, Crickets, Dermestids, Firebrats, Fleas, Palmetto Bugs, Silverfish, Sowbugs, Ticks and Waterbugs:** Controls **German Cockroaches** for up to 3 months. Apply as a spot and crack & crevice treatment to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside shelves, drawers, bookcases, and similar areas. For **Ticks**, spray surfaces until moist. Cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Exposed food should be covered or removed. Repeat as necessary but not more than once per week.

**Ants:** Spray ant trails and around doors and windows and other places where ants enter the house.

**Carpenter Ants:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

**Ticks (Including Ticks That May Cause Lyme Disease) and Fleas** on surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters

*Continued on next page*

until moist. **Adult Fleas** and **Larvae** contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining in an inconspicuous area prior to use.

**Spiders:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

**Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks:** Apply around doors and windows and other places where these pests may enter premises. For Ticks, spray surfaces until moist. Treat baseboards, storage areas and other locations where these pests are found.

**FLYING INSECTS: Houseflies, Gnats, Mosquitoes and Small Flying Moths:** Spray localized resting areas, such as under eaves, porches, inside surfaces of window and door frames, surfaces around light fixtures and cords, railings, etc. and anywhere these insects may rest. Insects coming to rest on treated surfaces will be killed.

**HORSE STABLES:** To control **Stable Flies, Horn Flies, Houseflies, Face Flies, Horse Flies, Deer Flies, Mosquitoes and Gnats.** Apply thoroughly to surfaces until wet. Insects coming to rest on treated surfaces will be killed or repelled. Repeat treatment as necessary but not more than once per week. Do not spray animals or humans, or apply to animal feed or watering equipment. Controls **Stable Flies** for up to 4 months.

**PANTRY PESTS: Grain Beetles, (Rusty, Merchant and Saw-Toothed), Flour Beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elmleaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles, and Tobacco Moths:** Treat exposed stages. Remove all foodstuffs, utensils, and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow to dry prior to replacement of shelf paper, food, and utensils. Wash any exposed food handling surfaces and utensils before use.

**Carpet Beetles (Black, Furniture and Varied):** Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

**Webbing Clothes Moths:** Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

**Bedbugs:** Apply to cracks and crevices where evidence of bugs occurs. This includes bed frames, box springs, inside empty dressers and clothes closets and carpet edges, high and low wall moldings and wallpaper edges. Do not use this product on mattresses, pillows, bed linens or clothes. Remove all clothes and other articles from dressers or closets before application. Allow all treated areas to dry thoroughly before use. Not recommended for use as sole protection against bedbugs. If evidence of bedbugs is found in/on mattresses, use products approved for this use.

Also, treat your yard with a product registered for yard application.

#### OUTDOORS:

Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops.

For outdoor use only as an aid in controlling these insects.

Point sprayer away from face. Hold sprayer on a slight downward angle, approximately 12 inches from surface to be sprayed. Spray with wind if breeze is blowing. Do not contaminate fish ponds or apply directly to water.

**PESTS ON OUTSIDE SURFACES OF BUILDINGS:** For control of building infestation to **Ants, Clover Mites, Crickets, and Sowbugs (Pillbugs).** Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply to outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages, and refuse dumps. Repeat treatment as necessary but not more than once per week.

**CRAWLING INSECTS: Ants, Cockroaches (Including Asian Cockroaches), Centipedes, Crickets, Mole Crickets, Water Bugs, and Silverfish.** Hold can 12 to 18 inches from surface to be treated and spray infested surface of patio or picnic area, hitting as many insects as possible. Spray to slightly moisten the surface. Also spray legs of tables and chairs.

**Ants:** Spray freely around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray freely on and around debris. Repeat as necessary but not more than once per week.

**Lone Star Ticks, Dog Ticks, Crickets, and Fleas:** Apply thoroughly to infestation in bushes, grass or weeds.

**Wasps, Hornets, Yellow Jackets and Bees:** Spray nests and other surfaces where bees may rest. Aim spray at nest openings. Applications should be made late in the evening when insects are at rest.

**FLYING INSECTS: Houseflies, Gnats, Mosquitoes, and Small Flying Moths:** Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

**Termites, Carpenter Ants and Carpenter Bees:** (for localized control only.) Apply Double Trouble Insecticide to voids or channels in damaged wood of a structure, or to cracks, crevices, and spaces in and between wooden portions of a structure or between wood and the foundation, in locations vulnerable to attack such as crawl spaces.

For **Termites**, the purpose of such applications is to kill workers or winged forms which may be present in the treated areas at the time of application. Not recommended as sole protection against termites. For active infestations, get a professional inspection. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. For severe termite infestation, contact a professional pest control operator in your area.

**HOUSE PLANTS:** To control **Aphids, Japanese Beetles, Lace Bugs, Leafminers, Mealy Bugs, Mites, and Spider Mites** on house plants. Prior to spraying, remove plants from living and eating areas. Put in an area not likely to come in contact with pets, children or food. Plants can be returned to original location when leaves dry. If plants cannot be moved, cover or remove exposed food and food handling surfaces. Avoid spraying surrounding areas.

Apply spray to upper and lower surfaces of foliage. Avoid wetting blossoms if possible. Repeat applications as necessary but not more than once per week.

**FOR CONTROL OF ORNAMENTAL GARDEN INSECTS:** For use on roses, dahlias, asters and other ornamentals to kill **Japanese Beetles** hit by spray, as well as **Whiteflies, Aphids, Armyworms, Lace Bugs, Mealy Bugs, Exposed Thrips, Pavement Ants, Spiders, Spider and Red Mites, Clover Mites and Leafminers.**

May be used on plants, as well as a multi-purpose spray in small ornamental gardens and for spot treatments to prevent insects from spreading into large garden areas.

May also be used on other plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, crassula, grape vine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, snapdragons, stocks, wandering Jew, and zinnias.

When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. DO NOT apply to vegetable plants or other plants used for food. Spray insects directly whenever possible.

#### STORAGE AND DISPOSAL

**Storage:** Store in a cool, dry area inaccessible to children. Do not transport or store below 32°F (0°C). If freezing occurs, allow product to thaw and shake well before using. Freezing does not adversely affect performance.

**Container Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**ALWAYS read and understand the application guidelines provided on the product labeling BEFORE you use the Double Trouble insecticide.**
