

KILLS BED BUGS ULTRA

*'Ready to use, water base
spray kills on contact and
up to 4 weeks after
treatment'*

KILLS ON CONTACT

**KEEPS KILLING ANTS, COCKROACHES,
FLEAS, BED BUGS, CRICKETS AND SPIDERS
FOR UP TO 4 WEEKS**

KILLS Bed Bugs ULTRA is a ready to use (RTU), water based spray that kills bed bugs on contact and continues to kill bed bugs and other pests up to 4 weeks after treatment. Not only does it kill bed bugs but is also labeled for use against fleas, ticks, dust mites, crickets, ants, cockroaches and spiders.

Available in quarts and gallons the **KILLS Bed Bugs ULTRA** is easy to apply. You can spray it on the surface with either the quart spray bottle or the gallon jug with sprayer attachment. Pour the **KILLS** into a garden sprayer and cover larger or multiple areas quickly and more efficiently. Before you apply **KILLS Bed Bugs ULTRA** always read, understand and follow the *Directions For Use* printed on the product label.

To kill bed bugs, apply as a spot treatment to cracks and crevices, around baseboards, floorboards, bed boards and walls. To treat beds, remove all the bedding and take apart the bed frame. Thoroughly clean and air out mattresses and box springs. Spot treat only areas that may harbor bed bugs. Concentrate on tufts, folds and seams. Allow everything to completely dry before reuse. Repeat after 4 weeks if necessary.

KILLS Bed Bugs ULTRA can be used to control a variety of insects including fleas, ticks, dust mites, crickets, ants, spiders and cockroaches. See the product label for directions in killing these other insects.
