

# KILLS BEDBUGS

**Quick kill, oil based formula that kills bedbugs dead!  
For use in homes, hotels, hospitals, schools & more!**

**KILLS Bedbugs** is a **Ready-To-Use** oil based pyrethrin spray that quickly kills bedbugs and a long list of other insects on contact. Specifically designed for use on tough re-emergent pest bedbug (*Cimex letularius*) problems.

KILLS Bedbugs can be used for a variety of bedbug hiding places including mattresses, wall and ceiling joints, baseboards, under and behind furniture, cushions and other furnishings.

KILLS Bedbugs is also labeled for use on fleas, brown dog ticks, spiders, crickets, clover mites, cheese mites, granary weevils, and a host of other stored-product or 'pantry' pests.

**GENERAL APPLICATION:** Spray directly on surfaces using either the quart spray bottle or use a common pump-up sprayer. Retreat surfaces as needed. **ALWAYS READ PRODUCT LABEL BEFORE USE.**

**TO CONTROL BEDBUGS:** Spray mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints. Treat baseboards, moldings and floors. Retreat as needed.

**SURFACE SPRAYING:** To control additional pests (see the 'Additional Pest List') direct the spray into hiding places, cracks and crevices, under pallets, around containers of stored foods, around the bases of machinery, behind shelves and drawers.

**TO CONTROL FLEAS & BROWN DOG TICKS:** Thoroughly spray all infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, etc. Replace all bedding after treatment. See product label for more details.
