

KILLS Bed Bugs PLUS

Protects surfaces for up to 12 weeks after application

Kills Bed Bugs PLUS

Kills Bed Bugs PLUS is a water based, EPA registered, ready-to-use (RTU) insecticide in an aerosol spray can for easy spot applications. **Kills Bed Bugs PLUS** kills bed bugs and other insects on contact and keeps killing them for up to 12 weeks on a wide variety of surfaces. The non-staining formula does not leave oily residues and should not stain surfaces or fabrics not stained by water.

Kills Bed Bugs PLUS aerosol cans are ideal spot, crack and crevice control for the pest control professional. The point and spray ease of application is ideal for home and business owners.

Kills Bed Bugs PLUS does not require that you have a pesticide applicators license; both homeowners and pest control professionals can use **Kills Bed Bugs PLUS** without certification. All applicators will need to read, understand and follow the instructions printed on the spray can.

Kills Bed Bug PLUS uses Pyrethrins, Permethrin and Piperonyl Butoxide to provide a quick and continued kill of all listed insects. Even with short exposure (5 minutes) **Kills Bed Bug PLUS** achieved faster knock-

down and kill than the competition. It is proven effective against insecticide resistant species such as the Harlan and Cincinnati strains of bed bugs. It scored a 98% - 100% kill rate of all bed bug species after 24 hour exposure.

Use **Kills Bed Bug PLUS** to kill bed bugs, dust mites, cockroaches and ants for 12 weeks. It is also labeled for use on beetles, millipedes, centipedes, crickets, earwigs, fleas, lice, wasps, spiders and scorpions.

It can be sprayed on mattresses, box springs, carpets, upholstered furniture, drapes and more. You can treat clothing as long as it is washed before it is worn. Always test surfaces before widespread application. Spray the **Kills Bed Bugs PLUS** in an inconspicuous location to test for discoloration or staining.

Nixalite of America Inc offers a wide variety of bed bug control products, including the complete KILLS product line.
