SPRAYERS and FOGGERS

*Live Outside and Love It!
Kill mosquitoes & flying
insects around the places
you live, work and play!*

FOG® Propane Powered Mosquito Fogger

Ideal Small Area Fogger

FOG Propane Powered Mosquito Foggers are portable, small area thermal foggers designed for the economical fogging of outdoor areas. When used with a suitable insecticide, this fogger can clear outdoor areas of mosquitoes, flies, black flies, gnats and moths for hours, day or night.

An economical and easy-to-use propane powered thermal fogger.

FOG® Propane Mosquito Fogger

- Simple, easy to use and economical thermal fogger
- Creates a thick penetrating thermal fog
- Uses standard propane canisters for fuel (not included).
- Piezo ignition lights safely - no matches
- One hand, lockable on/off control
- Can apply any solution designed for propane foggers
- Lightweight, portable yet powerful

Why Use A Thermal Fogger?

Thermal foggers create a thick fog that gets into the spaces and voids to kill unseen insects. Allows effective treatment of bushes, woodpiles, crawlspaces, etc. Thermal fog carries much farther than cold aerosol applied by a spray can or ULV cold fogger. With thermal fog you can see the places you have already treated, saving time and money.

Applications

Fog these areas for a variety of nuisance insects;

- Lawns, gardens, bushes and landscaping
- Patios, decks, gazebos
- Around outdoor pools, hot tubs, ponds
- Garages, sheds, car ports, boat docks
- Crawl spaces, eaves, awnings
- Fog any solution made for propane foggers

Need 'Bug Juice' for your fogger? Contact Nixalite of America Inc

Always read, understand and follow the instructions provided with any fogger, sprayer or chemical. If you have any questions on fogging or spraying systems, please contact Nixalite® of America Inc
