

## Holographic Bird Deterrent Adhesive Tape

**Scare Away Bird Tape** is a simple and economical deterrent for nuisance birds. This reflective holographic tape has an adhesive backing that allows you to peel and stick it on all types of solid surfaces.

Scare Away Bird Tape uses sunlight to deter pest birds. The reflections created by the holographic patterns change with the intensity of the sunlight as well as the angle from which it is viewed. As a bird approaches the tape it is exposed to reflections of varying direction and intensity that can make the bird less confident when landing.

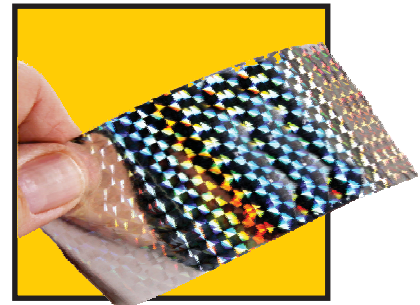

Scare Away Bird Tape is 2 inches wide and comes in 50 foot long rolls. It is available in either Reflective Silver or Metallic Red patterns. For best results, thoroughly clean the installation surface before applying. Use the tape backing to press the tape firmly and evenly on to the surface.

As a visual deterrent, Scare Away Bird Tape is designed for use in low pressure bird problems. It is not designed to deter nesting birds or where the bird presence is more than just a few birds at a time. You can use the Scare Away Bird Tape to augment other control products or methods. Using multiple products can be more productive than relying on just single products or methods.

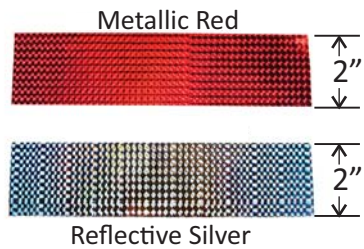

Scare Away Bird Tape can be applied to a variety of surfaces....

Signs	Lights	Roof Peaks	Roof Edges
Hand Rails	Ledges	Parapets	Down Spouts
Windows	Fences	Boats	Awnings
Skylights	Gardens	Vineyards	Pet Enclosures

Any exterior location that is frequented by pest birds. Make sure the surface is clean and dry before you apply.

**Scare Away Bird Tape**

Combine with other bird deterrent products....

- > Scare Away Bird Reflector
